## Wow those are some Fish!

Have you seen the videos of Asian Carp jumping in boats? These carp are invading the Mississippi and knocking fishers out of their boats. Efforts are being made to keep them out of the Great Lakes. Why are they a problem, you ask? Asian Carp are voracious vegetation eaters. This has led to crowding out native fish populations not able to compete with such aggressive eaters. These carp can eat up to 40% of their body weight in a day and get up to 110 lbs! So...to make lemonade out of lemons we now have new dog treats from [Bare It All Pet Foods](#). The treats are made from Asian Carp, containing Omega 3's, a high protein content and little fat - making it a very healthy treat option for your pet!

## Walk it off...

Spring has made it and it's time to shed some extra winter pounds. A training refresher using positive reinforcement is a must as we hit the pavement with our dogs. Small tasty motivators are great for training. We carry many tasty crunchy and soft training treat options at only 2-3 cal per treat. You can reward good dog behavior without adding pounds to the waist line. These little treats are also perfect as an anytime snack. No guarantee these treats alone will train your dog ☺. Quick and convenient treat access is also a must. Check out our new line of sleek treat bags. They have a magnetic closure. We also have a unique pocket liner which fits right in your pocket. As the weather warms up please carry water to keep yourself and dog hydrated. Too often people underestimate their dogs need for H<sub>2</sub>O.
